

# Crown Energy AB served with documents relating to European Payment Order claim from PartPro S.r.l.

**Crown Energy AB (publ) has been served with documents relating to a European Payment Order claim filed by PartPro S.r.l., a subsidiary of Proger S.p.A., before the court in Italy. The claim concerns EUR 5 million and relates to part of a legacy debt previously described in the Company's financial reporting in connection with the acquisition structure relating to the founders of Accyourate. Crown Energy will respond to the claim in the Italian proceedings. Crown Energy contests the claim and disputes its validity on both procedural and substantive grounds.**

The claim concerns EUR 5 million, corresponding to the Proger/PartPro portion of the previously disclosed outstanding EUR 10 million amount that has been described in the Company's financial reporting in relation to the acquisition structure connected to the founders of Accyourate.

Crown Energy contests the claim and disputes its validity on both procedural and substantive grounds. The Company is preparing its response in Italy together with legal counsel and will take the procedural and other measures it considers necessary to protect its interests.

Crown Energy also notes that the parties have been, and remain, in ongoing discussions with a view to finding an amicable solution to the matter. Those discussions are still ongoing.

Crown Energy will provide further information if and when appropriate.

**About Crown Energy**

Crown Energy is transforming into a new and more socially responsible business direction, with focus on the medical technology industry and on improving the green footprint by way of investing in companies active in those areas.

The investment into the Healthtech company **Accyourate** marked the start of the new Crown Energy in early 2023. Accyourate holds high-tech patents and creates algorithms to support production of 'smart' wearable garments for use in the medical industry as well as services such as analysis, data gathering and extrapolations of medical information and growth of medical databases.

Crown has in early 2024 entered a strategic partnership with **KAYA Climate Solutions GmbH**, a project developer in nature-based solutions for climate change mitigation in Sub-Saharan Africa. This collaboration aims to be a starting point for large impact in climate change mitigation and adaptation through landscape restoration and nature conservation which will be financed by the voluntary carbon market and similar mechanisms.

The business area **Asset Development and Management** based in Angola is providing international companies Real estate and services. Crown Energy has been active in the oil and gas business for more than 10 years. Today the only remaining asset in the energy field is a passive holding of energy reserves which following the signing of a sale and purchase agreement is being divested. Crown has withdrawn from and/or written down its other earlier Licence holdings.
